

## Weekly Report

### 1 Done

1.1 Discuss the specific idea of patent with lawyer Xu: how to construct each view of our system.

1.2 Prepare to introduce our work for Pro. Hansen.

1.3 Prepare the report about our work on the group meeting.

1.4 Read the draft of the monograph

1.5 Discuss the topic of Kai Yuan's thesis with him. In summary, he planned to implement an automated algorithm about trajectory privacy preservation so that we can compare its effect with the visual approaches.

1.6 Review the courses; make a presentation on the class about interaction.

### 2 To Do

2.1 Review the courses; finish part of my homework.

2.2 Complete the initial draft of the patent, communicating with the lawyer.
